OVERVIEW

The Millside Business Park is a new business opportunity on vacant land master planned for development. Located just over 1 mile from the Mass Turnpike, Millside Business Park totals almost 40 acres of developable land with a variety of market-ready pad sites that can be subdivided or aggregated to meet your current and future needs. This is a rare opportunity for development on "high and dry" industrially- zoned land in Western Massachusetts with full utility access and a new roadway into the industrially-zoned business park.

MILLSIDE BUSINESS PARK
